

SMELTING PLANT

One to be Erected Near Churchill Station

The Lyon county Times says: It is possible—in fact it is more than likely—that at no distant day the little cut-off station of Churchill, where the new line of the Southern Pacific railroad reaches the old C. & C. road, and which is now called the Nevada and California road, will become a town of considerable importance.

The plan, as near as can be ascertained, is for the construction of a smelter as a point a short distance this side of Churchill or east of that station, and a railroad from the smelter plant, which would be on the main line of the Nev. Cal. road, to the Ludwig mine and on up to the other mining prospects on the other side of the range of hills that lie west of Yerington and Mason Valley, for the purpose of conveying the ores of that section to the smelter.

The point mentioned for the location of the plant is an admirable one. Plenty of water can be obtained from the Carson river by ditching or piping a few miles, and the section is one where there are practically no agricultural interests that would be injured by smelter smoke, fumes or dust, so there would be no chance for injunction suits by farmers.

THE INSURANCE CO'S. ALL RIGHT

The State Controller has received telegrams from nearly all the Fire Insurance Companies doing business in San Francisco and they announce they will pay fire losses in full.

Most of the fire insurance companies had underwritten San Francisco property on what is known as the New York standard policy basis, containing the following clause:

This company shall not be liable for loss caused directly or indirectly by invasion, insurrection, riot, civil war or commotion or military or usurped power, or by order of any civil authority.

All these policies it is generally agreed by the insurance officials, are valid and will probably be paid in full, even though a building had suffered from earthquake as well as fire.

On the other hand many companies have written San Francisco business on policies where the clause has the word earthquake inserted as follows:

This company shall not be liable for loss caused directly or indirectly, by invasion, earthquake, insurrection, or military or usurped power or by order of any civil authority.

It was the unanimous opinion of fire underwriters that, while the companies are not liable for a fire loss on the burning debris or remains of a fallen building wrecked by the earthquake, they will be liable for the fire loss on a structure comparatively uninjured by the earthquake, but to which the flames spread. Most of the underwriters agree that they are liable for those structures which have been dynamited to prevent the spread of destruction.

Board to Open

SAN FRANCISCO, April 25.—The San Francisco Stock and Exchange Board, which was burned out and waiting for the first move of the banks has opened up temporary quarters at 1047 Gough street. An executive session will be held in a few days to decide upon the resumption of business. The Goldfield Exchange was closed immediately upon receipt of the news of the catastrophe.

Body Identified

The man who was found shot through the head last June near Sparks has been identified as M. Kingsbury, who lived in San Francisco and whose little daughter is in a convent in Reno. He was identified through a little printed prayer found in his pocket and his little daughter's name written across it.

A Carson young man asked his girl if she would darn his stockings if he would read Poes poems to her during the evening.

"Quoth the maiden, Nevermore."

New York contributions to the San Francisco relief fund may exceed \$5,000,000, \$3,500,000 having already been donated.

FROM THE RECORDS

Some Things the News Has Over-looked

The Appeal would like to enquire of the News how many defalcations have shown up since the Fusion party has been in charge of the State government? No one has ever heard of any, an the News man say a much for the time when the Republicans had the running of the government and managed to lift about two hundred thousand dollars from the School Fund? Was he here when a number of prominent Republicans lifted about a hundred thousand from the U. S. Mint for which some of the gang cracked rock in our local penitentiary? The Government closed the mint as they were unwilling to trust Nevada Republicans in an institution where there was so much money lying about.

The News is still yelling about officials who do not remain in Carson 365 days in the year. The only Republican officials who ever remained in Carson all the year round were the two who were sentenced for seven years to the Carson penitentiary.

The News has discovered that one of the Capitol gates is off its hinges. It was knocked off by a Republican teamster who was hauling wood. He caught sight of the News editor on the street and was so embarrassed that he couldn't drive straight.

Letter From Mr. Zaidig

Agent Matheson received a letter from Herman Zaidig by today's mail in which the writer says his home was badly damaged by the earthquake but escaped the fire. He says that all the books and securities in his and other brokers' offices were saved and that the banks will resume within thirty days. He further states that the men employed in the Comstock mines may not be paid off until that time for wages for the current month. He also requests that the Occidental be shut down temporarily.—Chronicle.

Bullfrog Miner Found Dead

James Callahan, a miner 55 years of age, was found dead in his tent in one of the principal streets of Bullfrog. He was lying face downward on his couch, and had been dead for several hours. It was thought that he was strangled to death by unknown parties. He leaves a wife in Los Angeles.

Examination

On May 10th and 11th the government will hold civil service examinations for positions of forest ranger, which is a department of the bureau of agriculture. The examination will be held in this city.

Earl Briggs, a son of Sol Briggs, was an arrival yesterday. He was in San Jose at the time of the earthquake and relates some lively experiences.

SHORTAGE OF LOGAN'S ACCOUNT

Late Sheriff of Nye Defaulter in Sum of Nine Thousand

After an extended examination by an expert accountant the accounts of the late Thomas W. Logan, as Sheriff, have been found to be \$9,000 short.

Under the authority of the commissioners expert, Louis Simonsen was employed and has gone over all the accounts. He refuses to affirm or deny that the shortage exists, but it has been admitted by all the county officers for some time, the only question being the amount. The examination is now complete and the figure stated is close to the amount revealed.

Since the examination began it has developed that four years ago when Logan went out of office as sheriff, he was short \$1,000. That occurred in the license collecting and before turning over the books he borrowed the books and made the shortage good. All who knew Logan agree that such was his probable intention this time, but death overtook him and made restitution on his part impossible.

Hurry Up Gib

The friends of Secretary of State Douglass are quite alarmed. He left the State Capitol a few days ago to rescue his family from the San Francisco earthquake and in his hurry neglected to secure permission from the News office. It is feared the News man will declare his office vacant if he is not here at an early date.

A Fine Burner

There is on exhibition at the Park Hotel sample rooms a splendid oil burner that can be attached to any stove, either cooking or heating. The burner is fastened to the lid of the ordinary cook stove and the housewife has a quick and steady fire such as cannot be had with wood.

It is extremely simple and easy to apply. Demonstrations have been given by the lady in charge the past two days. She will close tonight, and those interested should look into the matter from an economical point of view.

Another Crew

Several days ago the crew employed on the extension of the railroad from this city to Carson valley, went on a strike and were promptly dismissed. Another crew will be on hand today when tracklaying will advance at a lively rate, as there is plenty of material and the road bed is in first class condition. With no further delays the trains will be running into the valley within thirty days.

E. W. Tremont and wife, Miss Beatrice Tremont and Mrs. R. E. Ratcliffe of Eureka are spending a few days in this city.

NOTICE CONSUMERS

Merchants Have Signed Agreement Limiting Supplies

Carson City, Nev., April 26, 1906.

To our Customers: Owing to the conditions resulting from the recent calamity which has befallen San Francisco, we find that our capacities are inadequate to meet the demands being made upon us for supplies.

We therefore desire to impress most forcibly upon our customers the necessity of aiding and co-operating with us in the following particulars:

First: That you limit your purchases so we may be able to distribute our stocks of goods in such manner that all our trade may be supplied in the most equitable way.

Second: That you place no orders for more goods than what is absolutely necessary, as we will not be able to fill orders if they are in excess of present needs, but will endeavor to do the best possible under the circumstances. You will recognize that we are being called upon to supply a greater scope of country than we are in the habit of being asked to do, as the dealers in our adjacent territory are not able to have their orders filled as heretofore and trade is thus coming to us for supplies.

Third: That we earnestly request that orders for goods be accompanied by cash as far as possible. Should credit be required we ask that make arrangements to be able to pay within thirty days from date of purchase as no wholesale dealer under present conditions will allow us credit for a longer period, and in a great many instances it will be necessary to send cash with the order before shipments can be made.

Fourth: That those owing overdue accounts should make every effort to meet their obligations immediately. Under no circumstances can we permit such accounts to increase while these conditions prevail. We would especially appreciate an effort on the part of our customers to anticipate payments, as far as within their power, for it must be obvious to all that the call that is being made upon us under present conditions will be such that it is beyond our ability to supply goods, unless we have the aid and co-operation of our friends at this time.

While there will be little shortage in the supply of flour and cereals, and very little, if any change in price, there will be a shortage in all lines of canned goods, and a sharp advance in price also in salt meats as the market is steadily advancing and these articles hard to obtain.

We trust that our patrons will endeavor to be as reasonable as possible in placing orders, so that it will allow the merchants to distribute their stock of goods in such manner that no hardships may be placed upon our customers by our inability to secure supplies as promptly as heretofore.

Yours truly,
J. KELLY CO.

ED. J. WALSH
DAVEY & MAISH
J. E. RICHARDSON

Bound Over

Frank Pearce, who was arrested in Yerington for giving whisky to Indians, yesterday had a hearing before U. S. Commissioner Smith and was bound over to appear before the U. S. Grand Jury, with bonds fixed at \$500. The grand jury will probably meet in June.

Goldfield Cutting Affray

James Gillan was slashed with a knife and seriously wounded by Gid Bell at Goldfield last Tuesday. The trouble started in the Seattle Cafe where the men were seated at breakfast. They both rose hurriedly from the table and went into the alley. After a violent argument Bell suddenly drew a knife and slashed Gillan in the face and throat. Bell is in jail.

Refugees from San Francisco on every train from the West are being supplied with food by Winnemucca citizens free of charge.

Oakland banks have placed a limit of \$20 as the total amount that can be drawn at any one time by depositors.

Here's a Tip Worth Taking

Next time you need clothes, remember that garments made to your order by the so-much-talked-about International Tailoring Co., of New York, Chicago and San Francisco, costs no more than ordinary ready-mades of the better grades.

And when you see what perfect-fitting, stylishly-cut, finely-finished garments they turn out for comparatively so little money, you'll wonder how any man can buy ready-made clothes instead of having this famous firm, the largest custom tailoring concern in the world, make them to measure for him.

WE REPRESENT THE
INTERNATIONAL TAILORING CO.

because we know how reliable they are and how successfully they meet our customers' wishes.
